Rabbi Assails ADL For Creating Race Turmoil In South

HOUSTON—One of the South's leading rabbis, Wm. S. Malev of congregation Beth Yesharun in Houston, last month lashed out at the American Jewish Congress and the Anti-Defamation League of B'nai B'rith for their **"excessive and aggressive propaganda"** on behalf of racial integration in the South. Rabbi Malev assailed what he called . . . **"their irresponsible and ill-timed publicity"** and their **"overtly-aggressive demands for action"** as being responsible for . . . **"much of our difficulty all over the South."** Racial agitation by these national Jewish groups, the Rabbi stated, constitutes . . . **"a distinct and tragic disservice to the Jew of the South."**

"It is characteristic of the attitude of the American Jewish Congress," wrote Rabbi Malev in the publication, CONSERVATIVE JUDAISM, **"that legislation may be used not only to enforce accepted ethical principles and constitutional law, but also to compel people . . . to behave in accordance with the desires and the objectives of groups like the American Jewish**

Fourteen Jews Now In The U.S. Congress

WASHINGTON, D.C.—Fourteen Jews, all but one Democrats, have been elected to the present Congress. Among them are three newcomers: Semour Halpern of New York, Herman Toll of Pennsylvania and Ernest Gruening of Alaska. Herman Toll, recently extolled by the Jewish Telegraph Agency's Milton Friedman as a . . . **"distinguished Jewish communal leader"** and as a Jew who . . . **"possesses the quick Talmudic mind of his grandfather, a rabbi,"** was immediately seated on the influential House Judiciary Committee, headed by his co-racist, "Manny" Celler.

The other eleven Jews in Congress are Celler, Holtzman, Multer, Farbstein, Teller, Zelenko, Dollin-

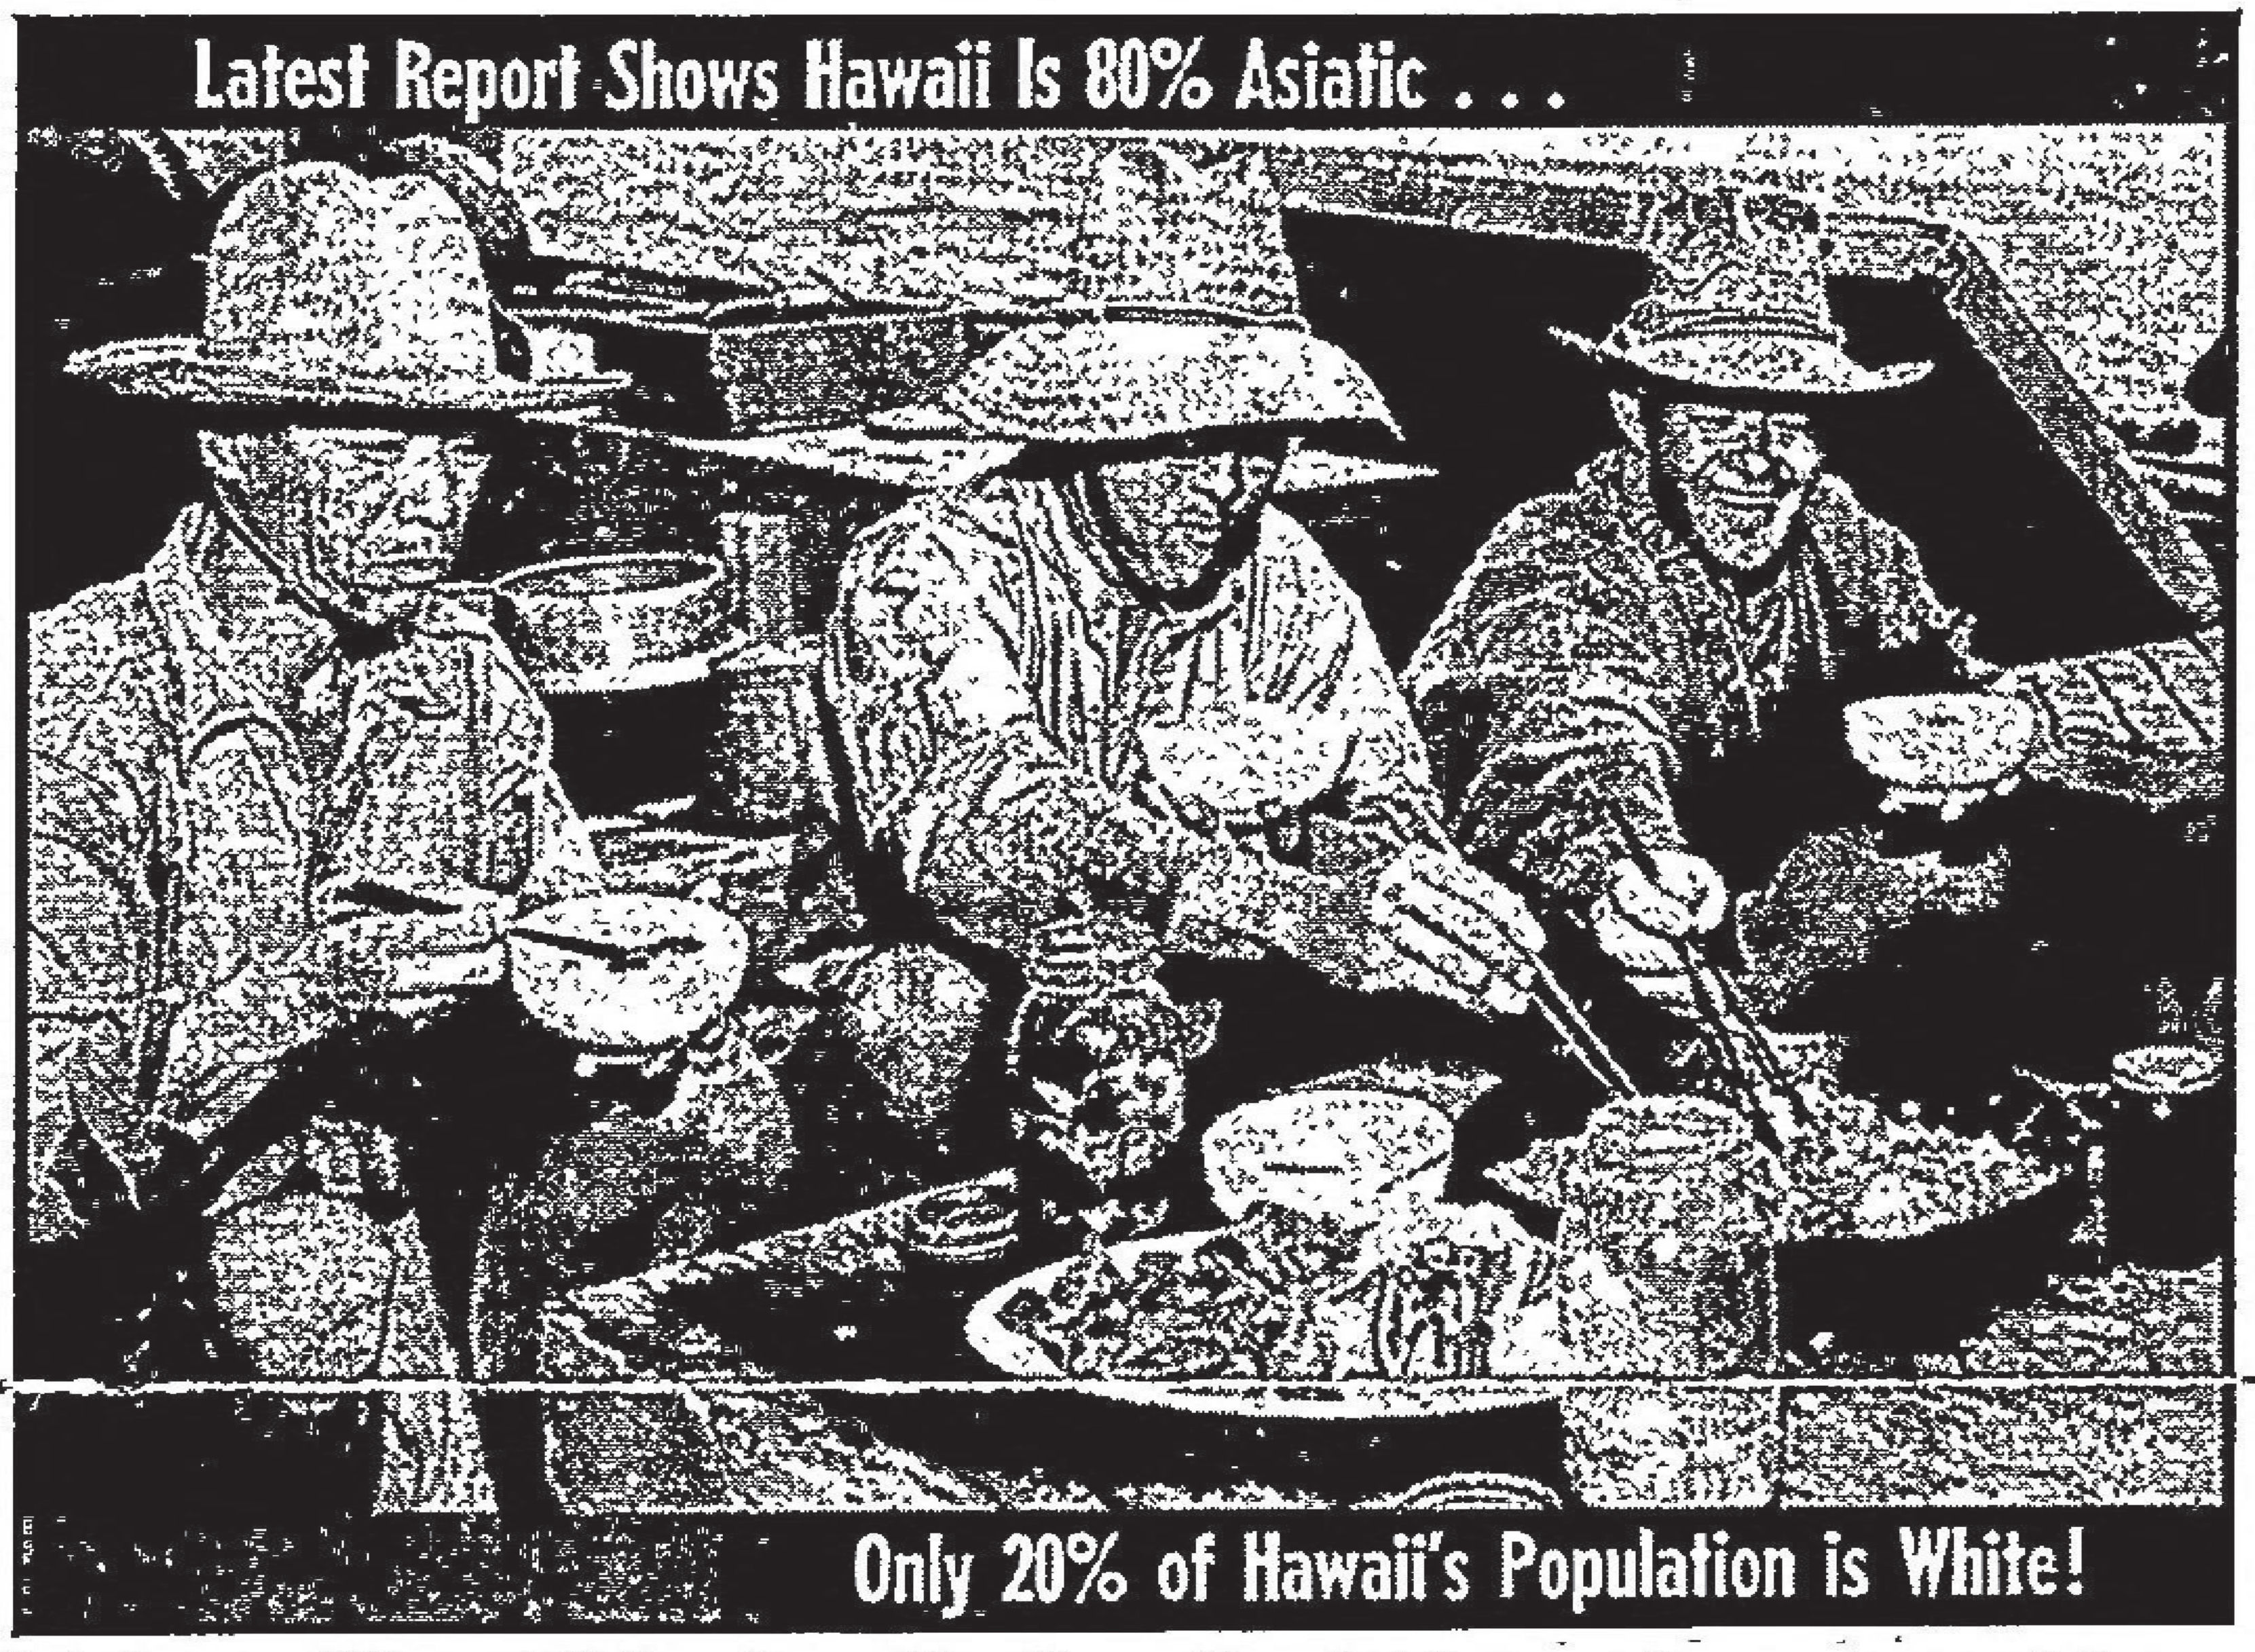
Latest Report Shows Hawaii Is 80% Asiatic . . .



Only 20% of Hawaii's Population is White!

Latest population statistics from Hawaii (published in the Feb. 13, 1959 issue of U.S. News & World Report) show that only 20% of Hawaii's population is white—a 3% decrease from the 1950 census. Another 3% of the population is Hawaiian, whereas a whopping 77% is Asiatic or non-white. Thus it is already apparent that Orientals are increasing their predominance in the Islands, while whites are losing ground. Here are the most up-to-date statistics:

(Rounded to nearest percentage point).

Japs	220,040
Whites	116,000
Mixed bloods	87,000
Filipino	75,400
Chinese	40,600
Hawaiian	17,400

U.S. Will Acquire An Oriental State If Hawaii Is Admitted

WASHINGTON, D.C.—To the accompaniment of one of the loudest and most flamboyant propaganda barrages in recent years, the big drive to bring Hawaii into the Union as the nation's 50th state is under way. From the evidence there is a very real possibility the effort will succeed this time unless immediate and effective opposition is rallied.

A look at the record shows why. Three times since 1947 the U. S. House of Representatives has voted to admit Hawaii to statehood, and the Senate has voted for admission once. Backers of the measure, encouraged by the successful Alaska statehood bill, are predicting easy passage in the House this year and claim a clear majority of 54 sponsors in the Senate.

Actually, if the merits of the statehood argument could be brought to the attention of the American people there is little likelihood Hawaii would even be considered for admission. In the first place, any comparison between Alaska and Hawaii is fraudulent on its face, as even a cursory examination will show.

✓ **Alaska,** for example, is a vast new frontier land encompassing 586,400 square miles. Hawaii, on the other hand, has an area of only 6,420 square miles—including several uninhabited desert islands of volcanic rock and sand. To put it another way, Hawaii is only 1/100th the size of Alaska!

✓ **Alaska,** as part of the North American continent, is easily accessible by highway and is separated from the rest of the country by friendly Canadian territory. But Hawaii consists of a group of islands spread over thousands of miles of the Pacific ocean, the main one being 2400 miles from the U.S. mainland.

✓ **Alaska** is capable of tremendous development, with vast resources

Commies Secretly Produce Flood Of Propaganda Films

HOLLYWOOD—Ten years ago the Hollywood motion picture industry was reluctantly forced to undertake a house cleaning when the Committee on Un-American Activities revealed that large numbers of its highly paid actors, writers and producers were dues paying Communists. The scandal was brought to public attention by the imprisonment of ten of Hollywood's most famous script writers—the notorious "Hollywood Ten"—on charges of contempt of Congress as an aftermath of their refusal to testify before the Un-American Activities Committee.

As a consequence of the resultant furor an estimated 150 motion picture writers and some 75 producers, actors and musicians with Communist backgrounds were ostensibly blackballed by the industry. At the same time the public was saturated with Hollywood press-agentry aimed at convincing one and all that Communist influence had been completely eradicated from the industry. And so it appeared on the surface.

Jew Merchants Boycott Viceroy Cigarettes

INDIANAPOLIS—The NATIONAL JEWISH POST claims in a recent news report that . . . **"sales of Viceroy cigarettes, which Jewish organizations are boycotting . . . dropped last year by almost 19%."**

The boycott was inspired by the discovery that Viceroy sells to the Arab countries but, due to Arab pressure, does not cultivate the Israeli market. Organized Jewry, which is apparently determined to drive the British-owned Brown & Williamson Tobacco Co. out of the U.S. market as a revenge measure, has been urging Jewish newspapers to refuse advertisements from the firm. Jewish student organizations and similar groups have also been pushing the boycott, and some Jewish merchants are reportedly refusing to handle the brand.

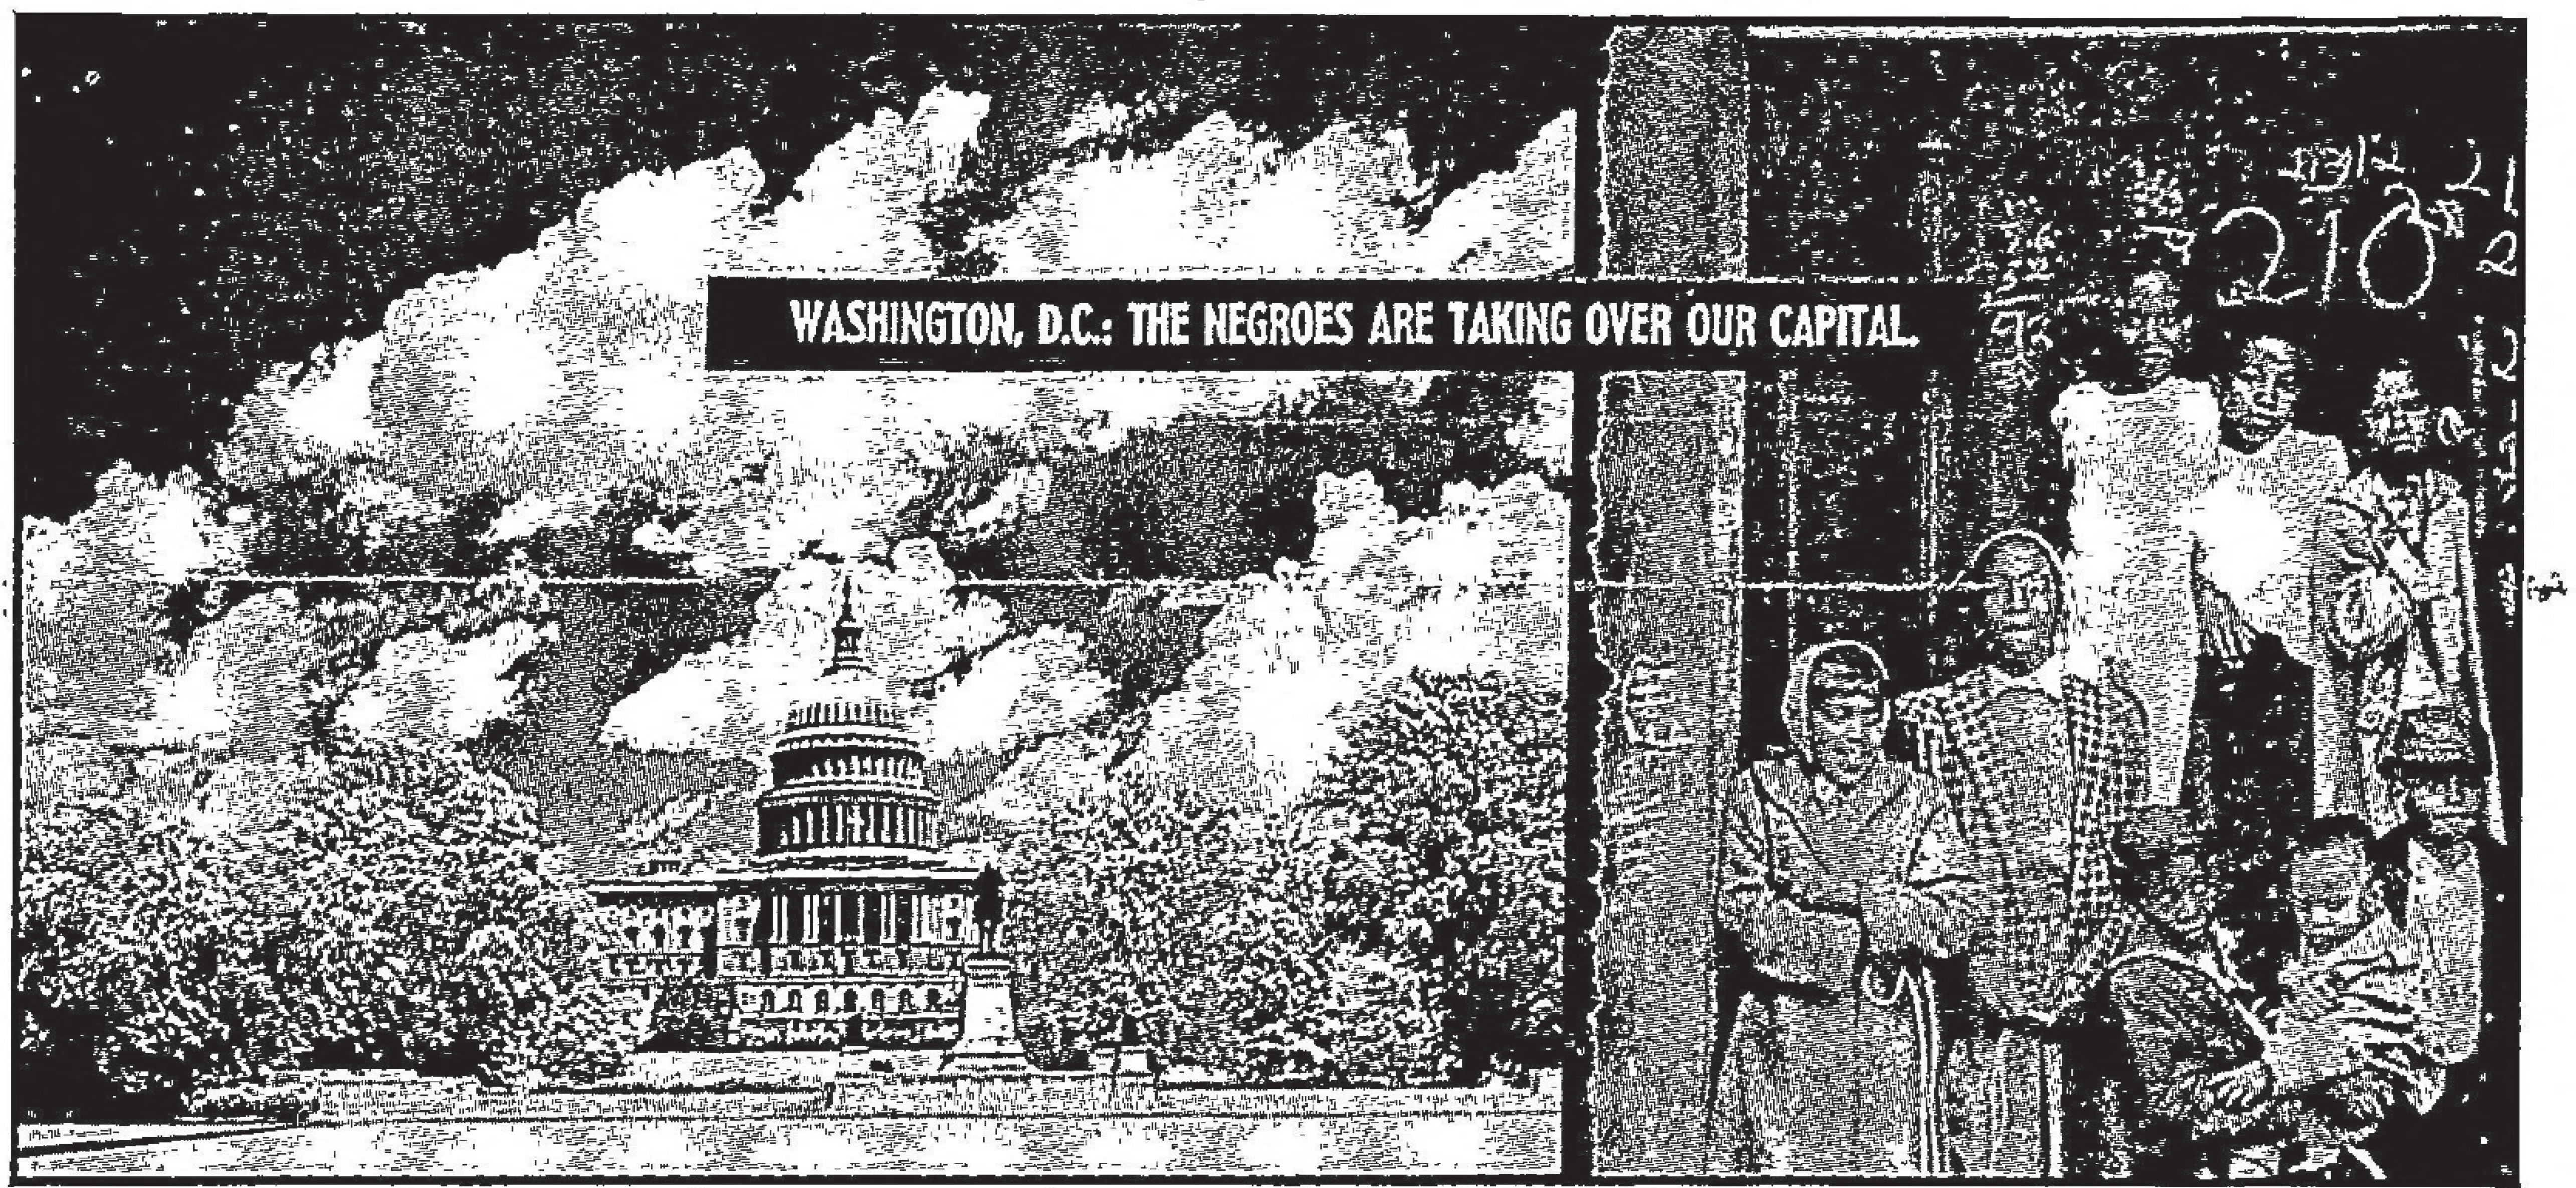
Black Invasion Dooms Washington D.C.



Garbage in the streets is not the only evidence that Negroes are taking over Washington, D.C. It is in D.C. schools, integrated by order of the Supreme Court, where the most devastating effect is felt—as an investigation by the famed "Davis Committee" showed two years ago. The Davis Report revealed, among other things, that 26% of all Negro births in Washington are illegitimate—and that Negroes tend to bring their manners and morals into the integrated schools. For example, it was found that 94% of the District's venereal disease is among Negroes, and that Negro pupils in the 6-to-10 year old age bracket are among those infected. Other statistics published by the same Congressional Committee demonstrated that 79% of the serious juvenile crime (murder, rape, robbery, sex offenses, etc.) is committed by Negroes. These are just some of the reasons why whites—and especially those with children—are fleeing en masse from the nation's capital. (Chairman of the above-mentioned Committee was Rep. James C. Davis of Georgia. The investigation was conducted during the 84th Congress, 2nd Session).

Nation's Capital Is A Sick And Dying City

WASHINGTON, D.C.—To generations of Americans, Washington, D.C., has been more than the nation's capital; it has been a sacred place and a symbol of freedom—a shrine of hallowed traditions almost from the time the Republic was born. Here George Washington lived and here Abraham Lincoln died. In Washington are the tombs of our Unknown Soldiers and the monuments erected in memory of our founding fathers. Here in times past resounded the voices of Madison, Jefferson, Adams, Franklin, Clay and other immortals. Here for a hundred and fifty years throbbed the heart and the soul of America.

Today Washington, D.C., is a sick and dying city. One half of its population is African. Seventy percent of its school enrollment is colored. One fourth of its Federal government employees are Negroes. Of its 3950 school teachers, only 1650 are white.

The decay and rot is everywhere evident. Armed and uniformed policemen patrol the schools in a futile effort to preserve a semblance of order. White students endure unspeakable indignities for the privilege of attending integrated schools.

In many parts the city is a veritable jungle where no white man or woman dares to venture after dark. Litter and garbage desecrate what were once stately avenues. Negro gangs of knife-wielding juveniles terrorize streets virtually within sight of the White House. Gracious residential neighborhoods, hastily evacuated by fleeing whites, have been transformed almost overnight into festering Negro slums.

The situation grows worse daily as white families continue their exodus and as more Negroes move in. Within a short time it is expected that Negroes will constitute an absolute majority of the population and, if present trends continue, will eventually hold a majority of the Federal jobs in Washington . . .

Such has been the fate of Washington, D.C., capital city of the greatest nation on earth. One cannot help but wonder what George Washington, Benjamin Franklin and other signers of the Declaration of Independence would think if they could see their beloved District of Columbia today . . .

Film Industry Hit For Secretly Hiring Blacklisted Communists

(Continued From Page 1)

But close observers of the Hollywood scene soon had reason to believe otherwise. For strange as it may seem, the film colony began turning out more propaganda after its phony clean-up than before. "Message" films, a comparative rarity before 1945, and fairly infrequent up until about 1949, began to pour forth in a steady stream after that.

Some were frankly and viciously anti-Southern in the "Tobacco Road" tradition. Numerous others pushed the Oriental theme, portraying love matches of various sorts between Oriental lotus blossoms and whites. Many dealt openly with the topics of anti-Semitism and anti-Negro "prejudice." Interracial romances between Negroes and whites became an increasingly popular subject.

Typical propaganda pictures produced within just the past year or so (and these are just samples) include "Baby Doll" and "God's Little Acre" (anti-Southern), "The Young Lions" and "I Accuse" (about anti-Semitism), "Sayonara" and "Geisha Boy" (Oriental-white romance), "The Defiant Ones" and "Kings Go Forth" (about race "prejudice"), "Island In The Sun" and "Band of Angels" (Negro-white romance), and so on, ad infinitum.

Last month the mystery behind this deluge of obscene racial propaganda was cleared up when Hollywood decided the time had come to drop its anti-Communist facade, which had become a farce anyway. Officially sparking the new look was the "Motion Picture Academy," whose "Oscar" awards have become an annual ritual in the industry. What the Academy did was to officially withdraw its ban on black-listed Communists and fellow travelers, thus making them eligible for "Oscar" awards this year.

The decision was greeted with undisguised delight by the Communist press. PEOPLE'S WORLD, west coast Commie organ, headlined it as **"Hollywood's Most Exciting Story."**

"The past two weeks," exulted PEOPLE'S WORLD, **"and what's to follow in the next few may live in Hollywood history as the beginning of the end for the political blacklist."**

No sooner had the Academy's ban been lifted than Dalton Trumbo, one of the original "Hollywood Ten," appeared on TV to boast that he had been writing movie scripts (including one for last year's Oscar winning film, "The Brave One") right along despite the ban. What is more, gloated Trumbo, many other blacklisted writers had been doing the same.

Just how many had been doing it was revealed by TIME magazine in its Jan. 26th ('59) issue: **"At least 15% of the current Hollywood films,"** glowed TIME, **"are reportedly written by blacklist members. Says producer King: 'There are more ghosts in Hollywood than in Forest Lawn. Every company in town has used the work of blacklisted people. We're just the first to confirm what everybody knows.' Writer Trumbo himself has sold 'many screenplays' under nine pseudonyms. Since 1947 Trumbo's income . . . has actually risen above his pre-blacklist level"** . . .

From the above it is adequately clear that Hollywood never cleansed itself of Communist influence, and never meant to. What the public got was a white-wash, not a house cleaning. This fact certainly goes a long way toward explaining why our movie theatres today are so cluttered with "message" films glorifying racial integration and other Communist propaganda objectives . . . After all, Communist script writers can't be expected to write ANTI-Communist stories, can they? . . .

TRAITOR'S REWARD: In Hollywood The Commies Are Moving In Again . . .

Among Hollywood's contingent of highly paid writers with a pro-Communist record is Arthur Miller (above), married to actress Marilyn Monroe. Miller, who barely escaped going to jail last year for contempt of Congress, is Jewish, as were most of the others supposedly blacklisted for Communist activity. Actually, since the picture industry is almost entirely Jewish owned, most of them continued to work (and propagandize) under assumed names. In reality Hollywood's vaunted anti-Communist house cleaning of a few years back was a farce devised to deceive the Gentile public . . .

Secret Soviet-Israel Conspiracy Bared

Master-Race Status Of Soviet Jews Indicated By Migration

TEL AVIV—A massive new wave of Jewish immigration from behind the Iron Curtain is expected in Israel this year. Although the story has been suppressed and distorted by the U.S. press, Jewish newspapers throughout the U.S. have been headlining the expected influx for weeks.

In New York the AMERICAN EXAMINER, which claims to be **"America's largest independent Anglo-Jewish weekly,"** recently carried a headline story announcing a special $100,000,000 fund drive by United Jewish Appeal (UJA) to defray the cost of the new immigration. This amount, it should be noted, is over and above UJA's regular 1959 budget of $105,000,000.00.

In California the JEWISH VOICE, which boasts of the **"largest Jewish circulation in the west,"** proclaimed in a front page story that Communist Rumania is permitting "exodus" for any of its 240,000 Jews who want to leave.

"A special registry has been opened in Bucharest, capital of Rumania, to facilitate registry of Jews who wish to leave for Israel," reported JEWISH VOICE in its January 9th issue. A week later (Jan. 16) JEWISH VOICE reported that . . . **"the Rumanian Ministry of Interior has increased its staff to expedite the departure of Jewish emigrants."**

The above clippings, all taken from various Jewish newspapers within recent weeks, tell of vast Jewish migration now underway from Communist Rumania to Israel.

The same week a Jewish Telegraph Agency (JTA) dispatch, carried in scores of U.S. Jewish newspapers across the country, estimated that between 80,000 and 100,000 Jews are expected to enter Israel this year—virtually all from Communist-occupied Europe. A month later, on Feb. 6th, JTA reported that . . . **"a full-scale reassessment of the resources of Israel is under way in preparation for the gigantic task of absorbing the 100,000 Jews expected to be released this year by the Communist Government of Rumania."**

Thus it is apparent that the flow of Jewish emigration from the Communist satellites, which has already swelled Israel's population by several hundreds of thousands over the past few years, has again been resumed on a wholesale basis. As usual, of course, this vast Jewish migration from the Soviet sphere will be represented to gullible Americans as further evidence that Jews are suffering "persecution" under the Communists and are fleeing to escape "anti-Semitism."

In actual truth, of course, permission to emigrate is a privilege which the Communists have never extended to any other group except the Jews. In fact Soviet authorities go to fantastic extremes to prevent the captive populations behind the Iron Curtain from escaping. Athwart the borders of Hungary, for example, the Communists have erected 6-ft. high double barbed wire fences. Approaches to the fences are kept freshly plowed and are salted with land mines. Armed guards with police dogs patrol the border constantly, making it next to impossible to escape . . .

Impossible for Christians, that is. Jews by the tens of thousands have been, and are being now, permitted by Soviet officials to leave freely, taking with them personal possessions (180 pounds per person). Far from being abused and persecuted, Jews enjoy a unique position in Communist lands; they are, in a word, a master race privileged to come and go across the Iron Curtain, as they please . . .

SIGNIFICANCE: It should be noted that virtually all this Jewish migration originates from the satellite countries—almost none from Soviet Russia proper. There is a reason. Under Communism, Russia has become a sort of Jewish preserve, with practically all Jews holding positions of power and influence over Gentiles to a greater or lesser extent. Never forget that the Bolshevik Revolution of 1917 was entirely a Jewish affair, and that while Communism has brought nothing but poverty, misery and privation to Russia's masses, it has at the same time brought power, prestige and wealth to Russia's teeming masses of Jews (estimated to number just under 7 million prior to the 1917 Revolution).

Today the Communist Party (kept purposely small to insure Jewish control) and the Soviet bureaucracy are completely honeycombed with Jews. It is true that a few non-Jews such as Lenin, Stalin and Khruschev have attained positions of dominance, but it is also true that all were married to Jewish women, as are many other Soviet leaders such as Molotov, Voroshilov, etc. It is no accident that Moscow, which prior to 1917 had an insignificant Jewish population, now has, next to New York City, more Jews than any city on earth.

JEWISH IMMIGRANTS ENTERING ISRAEL . . . WITH MOSCOW'S BLESSING.

No American newspaper dares to mention it, but more than half of all the Jews entering Israel since its founding in 1948 have been from Iron Curtain countries—which means they entered with the blessing and permission of Moscow. This year a vast new migration is underway from Communist Rumania, and some Jewish newspapers are predicting another wave of emigration will soon leave from Soviet Russia proper. All of which is indicative of the fact that Soviet Russia and Israel continue to work secretly together even while Americans are led to believe otherwise . . .

(Writing in the January 2 ('59) issue of JEWISH VOICE, Rabbi E. F. Einhorn, just recently returned from a tour of Russia, reported that . . . **"there are at least 500,000 and possibly as many as 700,000 Jews in Moscow alone."** New York Times correspondent Salisbury has estimated Moscow's Jew population to be 500,000).

The truth is that the average Russian Jew has no more desire to emigrate to Israel than the typical U.S. Jew. As a point of fact most Russian Jews are bitterly hostile to Zionism and to the Zionist ideal of Palestine as a national Jewish home.

In the satellite countries, on the other hand, sizable numbers of Jews find themselves misfits under Communism. Some have been uprooted by the war. Others find it difficult to adjust to the new order. Still others are inclined by reason of their religious proclivities to look to Israel rather than Moscow as Mecca. The consequence is a dissatisfied and troublesome minority—a fact admitted freely by the U.S. Jewish press. In its Jan. 16th issue, for instance, JEWISH VOICE states that: **"Bucharest Radio frankly admitted the gates were open because the Jewish minority was impossible to absorb."** The same paper a week earlier claimed that the emigration was being permitted by Communist authorities in order to . . . **"rid themselves of a minority that cannot be assimilated."**

Needless to say, if a Christian or non-Jewish minority proved equally troublesome it would not be permitted to emigrate, but would be liquidated or uprooted instantly—as were dissident elements in Latvia, Lithuania, parts of Poland, Germany, Hungary and elsewhere. Always in the past the Communist technique has been to deport or annihilate individuals, groups and even entire nations which did not readily conform to Communism. That is still their policy.

Not so in this instance, however. Russian Jewry is too powerful, too numerous; its domination of the Soviet apparatus is too complete. And the luxury of being a dissatisfied minority is strictly a Jewish prerogative. Certain Jews may stray (a la Boris Pasternak); they may offend or even commit treason, but they are still Jews and so immune to normal retribution . . . And so, while hundreds of millions of Christians are held captive behind barbed wire, a dissatisfied fragment of Jewry behind the Iron Curtain is permitted to depart for Israel—because it **"cannot be assimilated!"**

Interestingly enough, little or

PASTERNAK

Illustrative of Jewry's master-race status in Soviet Russia is the case of Boris Pasternak, who last year won world-wide notoriety when he was awarded a Nobel prize for his mildly anti-Communist novel, "Doctor Zhivago". Had Pasternak been a Russian he would have been promptly executed as a deviationist. But as a fellow Jew he is sacrosanct. Even though in disgrace, Pasternak still occupies a swank villa (dacha) on the outskirts of Moscow. Incidentally, although Pasternak has lived in luxury under Communism all his life (and still does) he is being ballyhood by fellow Jews (and by Trotskyite elements) in the U.S. as a suffering martyr . . . Shown above (in front) is Pasternak as he appeared in 1935 with his co-racist, the notorious Pravda editor, Ilya Ehrenburg, who also suffers in his own private dacha . . .

STATEHOOD

(Continued From Page 1)

of timber, minerals and farm land virtually untouched. With a population density of less than 1 person for every 3 square miles, there is ample room for settlement and expansion. Hawaii, by contrast, is crowded to the point of saturation with a population 250 times denser than Alaska's. Another thing: Alaska is populated predominantly by white Americans whereas Hawaii's population is an Asiatic polyglot in which white Americans are outnumbered approximately 5 to 1. Moreover, there are signs that the Islands' whites are decreasing in ratio. No matter how you look at it there is no room for growth and expansion in Hawaii, and no possibility whatever that white Americans will ever increase their foothold there—if indeed they are able to maintain their present precarious minority position there. The plain fact is that Hawaii is a non-white territory and will never be otherwise. And sooner or later its fast expanding Oriental population will begin to overflow onto the U.S. mainland . . .

SUMMARY: Never before has the U.S. admitted a territory dominated by non-whites into the Union; never in history has a non-contiguous island possession been considered for statehood. It would not be seriously considered now if the American people were in full possession of the facts.

Unfortunately, however, the depraved and pressure-ridden U.S. press has soft peddled the issue with the result that not one American out of 20 has any real conception of the issues involved. The average citizen has been conditioned to think of Hawaii in terms of Hula girls, Aloha at the dockside, sunbathed beaches, nostalgic guitar music and other commercialized tourist gimmicks. The picture of Hawaii as a teeming beehive populated almost entirely by Japanese, Chinese and Filipinos is one rarely revealed to the public . . .

The long and the short of it is that Hawaiian statehood will give us a 50th Oriental state inhabited and dominated by Asiatics. There is no conceivable advantage to be gained from such a move, whereas the precedent of accepting a non-contiguous territory inhabited by non-assimilable racial groups into the Union might well spell disaster in the long run. Once Hawaii is accepted, there is no logical reason why such Negroidal possessions as Puerto Rico, the Virgin Islands and other similar areas should not likewise be taken in.

No matter how you stack it up, Hawaiian statehood simply doesn't make sense—unless, of course, you are interested in destroying America as we know it, and as our forefathers created it . . .

Press Report

PARIS—According to the JERUSALEM POST, DeGaulle's new premier, M. Michel Debre, is a Jew whose . . . "grandfather, a Talmudist, was Chief Rabbi of Strausbourg."

MOSCOW—Every loyal American, whether he earns his money digging a ditch, punching a typewriter or sitting at an executive's desk, has one thing in common with every other American: he must pay income taxes. But a Communist traitor who receives income from Soviet Russia for "services rendered" is not subject to income taxes—or so the U.S. Treasury Department last month ruled in the case of singer Paul Robeson, recipient of a $25,000 "Stalin Peace Prize." The Treasury obligingly relieved Robeson of the obligation of paying $9,655 in taxes on the Soviet award.

LONDON—According to statistics published in TIME (Feb. 16, '59) seven out of ten babies born in Jamaica are illegitimate. The fact should be of particular interest to residents of the British Isles, who are presently being inundated by a massive influx of Jamaican Negroes. As British subjects, hundreds of thousands of Jamaicans have swarmed into England in recent years.

WASHINGTON, D.C.—The House Committee on Un-American Activities has released a highly significant report exposing the existence of an "elite corps" of lawyers who over the years have provided legal cover for much of the Communist subversion in the United States. The Committee report contained case histories on 39 of the Communist lawyers, 23 of whom are from California. Incidentally, of the 23 from California it is believed that at least two thirds, possibly more, are Jews. The names of the California contingent are as follows: M. Bachelis, B. Dreyfus, P. Epstein, J. Frankel, R. Gladstein, A. Grossman, B. Edises, C. Katz, S. Mandel, B. Margolis, R. Rosenberg, S. Rosenwein, R. Rykoff, E. Shandler, L. Sperber, F. Steinmetz, E. Treuhaft. Also: G. Anderson, J. McTernan, J. Porter, J. Tenner, D. Walker, C. Garry.

WASHINGTON—"Don't be surprised if the Rumanian Ambassador in Washington appears at Jewish conferences in this country to appeal for funds to help the emigration of Jews from East European countries. This emigration is assuming such unprecedented proportions that all major Jewish organizations in the United States have decided to issue a joint call for an urgent United Jewish Appeal conference" . . . So began an article written by Boris Smolar, a Jewish Telegraph Agency pundit whose column appears in scores of Jewish newspapers throughout the U.S. If Smolar's prediction is true, it means the Communist government of Rumania (and its ambassador in Washington) will be working hand in hand with organized Jewry to raise funds for the state of Israel . . . Tax free, of course.

ATLANTA—Four months ago the kept commercial press hysterically headlined the event when 5 "anti-semites" in Atlanta were arrested on framed charges of bombing the Jewish temple there. But last month when a jury acquitted the so-called "ringleader" of the "Atlanta 5," most newspapers refused to print the story . . .

Congress."

As for the Anti-Defamation League of B'nai B'rith, it has, according to the Rabbi, become a . . . **"nasty word in Southern communities, considered in the same class with NAACP and even the Communist groups."**

The Houston Rabbi also accused organized Jewish pressure groups in the North of seeking to make martyrs of Southern Jews and of . . . **"looking down their noses at the backward and timid Southern Jews."**

"No one," declared Malev, **"has the right to martyr somebody else for the cause he believes in."** As for those who aspire to martyrdom, the Rabbi suggested that they . . . **"come down South and try it for themselves if they think so much of it"** . . .

SIGNIFICANCE: In essence Rabbi Malev's bitter attack is symptomatic of a growing resentment on the part of some Southern Jews against the Anti-Defamation League, the American Jewish Congress and other professional Jewish trouble-making bodies. That resentment feeds on the knowledge that the present integration struggle in the South is almost entirely due to the activities of a half dozen organizations —virtually all Jewish or Jewish controlled.

Both the American Jewish Congress and the Anti-Defamation League of B'nai B'rith, for example, figured prominently in the infamous May 17, 1954 Supreme Court decision which outlawed segregated schools—the so-called "Black Monday" decision. Both organizations signed briefs of "amicus curiae" (that is, as "friends of the court") in the case. As a matter of fact, no less than 9 of the 15 individuals who signed briefs in support of the NAACP in that case were Jews. Considering the fact that the NAACP has a Jewish president and is to all intents and purposes Jewish controlled, it is therefore evident that the Supreme Court's 1954 decision against segregated schools was obtained primarily at the instigation of organized Jewry . . .

Many white Southerners are becoming aware of these facts, as evidenced by their growing antipathy for Jews. This in turn has led at least some Jews in the South to question the wisdom of the national Jewish organizations, safely centered in the North, of continuing their racial agitation in the face of growing Southern resistance.

That, in a nutshell, is the story behind Rabbi Malev's bitter attack against the American Jewish Congress and the Anti-Defamation League in the publication, CONSERVATIVE JUDAISM, last month.

Herman Toll, as a typical example, is an official of the Anti-Defamation League of B'nai B'rith, has been prominent in Zionist affairs for 25 years, is a member of the sinister American Jewish Committee and is credited, among other things, with having helped to push through Pennsylvania's coercive FEPC law compelling employers to hire, promote and otherwise coddle Negroes . . .

ISRAEL IMMIGRATION

(Continued From Page 3)

none of this is reported by the depraved, pressure-ridden American press. Not a single newspaper or news magazine of national circulation has given out the truth. The truth is that the Communist-Jewish hierarchy which dominates Soviet Russia has again come to terms with the Zionist government of Palestine, thus temporarily stilling their long-standing feud, so as to permit dissident members of the tribe to depart for Israel. A similar arrangement prevailed from 1948 until 1951, when during a 30-month period no less than 298,000 Jews entered Israel from behind the Iron Curtain—according to statistics compiled by the U.S. government.*

Meanwhile, millions of Jews continue to direct and control the Soviet bureaucracy; if this were not so, the present migration to Israel would be impossible . . .
